

Cover Letter

Dear Hiring Manager,

I am writing to express my interest in Operations, Business Support, Customer Experience, or Finance opportunities within your organization.

With more than 20 years of international experience across Pakistan, the United Arab Emirates, Saudi Arabia, and Portugal, I have built a career centered on operations management, finance, customer experience, and business improvement. Throughout my career, I have successfully led teams, managed key corporate accounts, strengthened operational performance, and maintained high standards of financial and regulatory compliance.

I currently work as Operations Manager at LTMT Travels & Money Transfers in Portugal, where I lead a team of 20 employees and manage a portfolio of more than 150 active customers. Alongside my operational responsibilities, I continue to invest in my professional development by studying Full Stack Python Development, enabling me to combine operational expertise with digital solutions, automation, and data-driven decision-making.

I am now looking to establish the next stage of my career in the Netherlands, where I can contribute my international experience, leadership skills, and commitment to continuous improvement within a forward-thinking organization. I am motivated by opportunities to optimize business operations, enhance customer experience, and support sustainable business growth.

I would welcome the opportunity to discuss how my experience and professional approach can contribute to your organization. Thank you for your time and consideration, and I look forward to hearing from you.

Yours sincerely,

Muhammad Awad Yasin

ABOUT ME

Operations/Business Account Management, Business Development Professional with 20+ years of experience across Pakistan, the UAE, Saudi Arabia, and Portugal. Proven expertise in operations management, finance, customer experience, compliance, process improvement, and team leadership. Skilled in building strong client relationships, improving operational performance, and leading multicultural teams. Currently expanding expertise in Python software development (Full Stack), business automation, and data analytics to support digital transformation and operational excellence. Seeking to bring my international experience and results-driven approach to a progressive organization in the Netherlands.

WORK EXPERIENCE

Lifecent Unipessoal | Portugal 2020 - Present

Operations Manager

Lifecent Unipessoal is a Portugal-based parent company overseeing multiple business divisions, including LTMT Travels & Money Transfers, which provides travel management, visa consultancy, foreign exchange, and international money transfer services, and Uma Iniciativa , Floating Heart Unipessoal , which specializes in workforce recruitment, labor supply, international hiring, work permit processing, and staffing solutions for clients across the manufacturing, logistics, warehousing, and agricultural sectors in Portugal.

- Directed end-to-end operations across travel, financial services, and workforce solutions, ensuring operational excellence and business growth.
- Led and developed a team of 40+ employees, driving performance, productivity, and continuous improvement.
- Managed financial operations, including budgeting, cash flow, financial reporting, and regulatory compliance.
- Oversaw travel management, visa processing, international money transfers, and foreign exchange services.
- Managed workforce recruitment, deployment, and work permit processing for local and international employees across multiple industries.
- Built and maintained strong relationships with 60+ retail and corporate clients, suppliers, and strategic partners.
- Implemented process improvements, monitored KPIs, and prepared management reports to support strategic decision-making.
- Ensured compliance with Portuguese labor laws, immigration regulations, and financial standards.

Marhaba Services Portugal 2026 – Present

Full-Stack Python/Django Developer

- Marhaba Services is a Brand Name of Floating Heart Unipessoal, operating a multi-module business platform integrating e-commerce, service management, travel booking, and custom software development.
- Designed and developed a multi-module web-based business platform using Python, Django, PostgreSQL, HTML, CSS, JavaScript, Git/GitHub and Render, integrating e-commerce and service-management functionality within a single application.
- Developed a modular Django architecture covering customer accounts, product catalog, and inventory, shopping cart, wishlist, orders, payments, coupons and customer reviews.
- Designed and implemented a PostgreSQL relational database with Django ORM models and administrative management through Django Admin.
- Developed Marhaba Services, providing a central platform for travel, remittance and other customer services.
- Built a CV Builder allowing structured user information to be converted into professionally formatted CV output.
- Developed customer-facing forms, validation, business rules, responsive interfaces and administrative workflows.
- Implemented environment-based configuration for local development and production deployment.
- Used Git and GitHub for source control and deployed the production application using Render and PostgreSQL.
- Structured the project using reusable Django applications to support future expansion and third-party API integrations.
